Department of Chemistry organizes

National Conference on
"Perspectives of Chemical Sciences"

23rd, 24th & 25th February, 2012

Progressive Education Society's, Modern College of Arts, Science & Commerce, Shivajinagar, Pune 411005 is organizing a National Conference entitled "**Perspectives of Chemical Sciences**" on 23rd, 24th & 25th February, 2012 as a part of celebration of International Year of Chemistry 2011.

This conference will broadly cover the areas like **Chemistry Education, Chemical Industry & Academia Relationship and Multifaceted research in Chemistry.**

Chemistry Education

Over the past few decades Chemistry education has witnessed several changes like 1) Vastness of syllabus, 2) Interdisciplinary aspects of the subject and 3) Lack of motivation on the part of the students.

Chemistry has progressed in conceptual understanding as well as experimental techniques which have found their place in syllabus. Apart from this chemistry links with other disciplines of science like Mathematical sciences, Physical sciences, Environmental sciences, Earth sciences, Medicinal and Pharmaceutical sciences, Agriculture sciences, Nuclear sciences, Forensic sciences etc.

In this scenario, the role of the teacher is very crucial. Comprehension of such a broad subject has become difficult for students and its presentation has become a challenging task for teachers. This conference is aimed to provide a platform to present and share Innovative practices and teaching methods.

Chemical Industries and Academia Interaction

This conference also wants to provide a platform for the presentations of endeavors towards the development of relationship between Chemical industries and academia in the areas such as requirement of chemical industries from the academia, opportunities in chemical industries for the students, hands on training, add on courses, industrial visits etc.

Multifaceted research in Chemistry

This conference aims at enlightenment of participants through presentations of the research articles in all the diverse fields of chemical sciences. Integral development of students requires research culture in the college which will get promoted through the discussion of the scientists and experts in the chemistry fields.

(Detailed programme will be announced soon.)

For details contact:

- 1) Prof. S. R. Pokharkar (9822956606)
Head, Dept. of Chemistry
- 2) Prof. S. K. Ujlambkar (9881641201)
- 3) Dr. (Mrs.) S. D. Joag (9423568922)
